Student Engagement

CTA Summer Institute IPD Strand @ UCLA

Social and emotional learning (SEL) provides a foundation for safe and positive learning, and enhances students' ability to succeed in school, careers, and life. This conference will:

- Provide a social-emotional lens of classroom practice by integrating SEL into content areas (math, science, social studies, and literacy), Universal Design Learning practices, and classroom management strategies.
- Share educator SEL skills for implementing the Common Core and NGSS State Standards.
- Address continuous improvement and policy considerations for teaching to the whole student.

The strand is multi-faceted and designed for classroom teachers, school site administrators, curriculum coordinators, district administrators and other educators. District level or school site teams are encouraged to attend.
