

How do you create conditions for student engagement and a positive classroom environment?

From Brain Science to Instructional Practice

Friday, February 1, 2019
Fairmont San Jose

Friday, March 22, 2019
Hyatt Regency Orange County

This one-day pre-conference will explore:

- Creating conditions for student engagement
- Understanding how the brain works to create a positive classroom environment
- Exploring classroom management from a social emotional learning perspective
- Using student-centered pedagogy to excite learners
- Understanding how executive functioning works

Keynote speaker, neuroscientist Kenneth Wesson, will lead participants through the connection between executive functioning and the social-emotional link to the brain.
